Captain Duncan Graham,

No. 4 Canadian General Hospital (University of Toronto).

My dear Dr. Graham:

Let me thank you very sincerely for your kindness in sending me a letter of congratulation. It is very gratifying to have your kind words and I may assure you that Lady Falconer and myself appreciate your thoughtfulness.

We assure that the Hospital is now in England but our cable was rather indefinite. I hope, however, that it is there and that you are back within easier reach of this country. It is a fine record that you have made for yourselves and for the University in Salonica. You must look back upon it with profound satisfaction, and the fact that you had to endure so much makes the satisfaction all the greater.

We are just beginning to get our preparations made for the coming session. The introduction of compulsory military training is causing us a little difficulty. The indications are that there will be a large attendance in Medicine.

With kind regards in which I know my wife joins,

I am,

Yours sincerely,

President.

Graham, Duncan Archibald James
